Review Parking Authority Phase 1 Recommendations

M. Zammuto reviewed the Phase 1 recommendations and the draft presentation to the Board of Selectmen. The discussion focused on the recommendation for Main and Nason Street parking lengths. Most spaces are two hours. While changing the terms to one hour would generate more turnover, members had concerns about it being enough time for hair salons and dentists etc. The group also discussed recommended enforcement, current hours end at 5pm.

J. MacKeen made a motion to approve the proposal as drafted. The motion was seconded by M. Noble and passed unanimously.

Members discussed strategies for sharing this information, calling businesses and the Maynard Business Authority. This discussion will be on the Board of Selectmen Agenda on July 7th. Members also discussed bicycle safety in downtown.

Adjournment 9:30 AM
